

Greater Kaweah Groundwater Sustainability Agency Boundary

The data from which this map is derived were acquired from multiple sources and are of varying positions. Misalignment, vagueness, and distortion are due to time, measurement, and plotting data management techniques. The boundary shown is the California Department of Water Resources Subbasin 119 Subbasin Boundary shapefile (modified Sep 2016) described in the NAD83 California Trade Areas (no projection). All data in this visualization are therefore projected to that projection. No guarantee of accuracy is given or implied. 22 Dec 2016
